

ANURAG KUMAR BHARTI

📍 Bettiah, Bihar, India 🔗 [ace-akb.vercel.app](#)

🌐 [linkedin.com/in/anuragkumarbharti](#) 🐙 [github.com/i-akb25](#) ✉ [anuragbhartiee25@gmail.com](#)

Professional Summary

Electrical Engineering graduate driven by curiosity and a passion for building. Interested in embedded systems, automation, robotics, and software, with hands-on experience developing real-world hardware-software solutions.

Education

National Institute of Technology Patna

Dec 2021 – June 2025

Bachelor of Technology in Electrical Engineering

Bihar, India

Experience

JSW Steel Limited

August 2025 – December 2025

Graduate Engineer Trainee – Electrical and Automation

Dolvi, Maharashtra

- Monitored on-site power networks and recorded daily operational metrics for distribution transformers and PDBs, providing structured data logs to the engineering team.
- Executed electrical testing and assisted in safety audits across active expansion phases, ensuring continuous operations and compliance with site safety standards during heavy machinery deployment.

North Bihar Power Distribution Company Ltd

June 2023 – July 2023

Industrial Trainee

Bettiah, Bihar

- Analyzed and troubleshoot complex power distribution systems, protective relays, and control mechanisms using system monitoring and data analysis.
- Acquired practical experience in monitoring and managing 33/11 KV power grid substations, analyzing performance metrics, and identifying system inefficiencies.

Projects

Titan OS: Industrial Edge Telemetry | *React.js, Node.js, WebSockets, Docker, MySQL* | Live Demo | GitHub **June 2026**

- Architected a full-stack industrial IoT platform utilizing React.js and Node.js to ingest, process, and visualize high-frequency edge sensor telemetry.
- Engineered a low-latency bidirectional communication pipeline using WebSockets to broadcast real-time machine diagnostics and fault alerts to the client UI.
- Containerized the distributed microservices architecture utilizing Docker, and developed a JavaScript physics fallback engine to guarantee offline dashboard availability.

Adhayan: Real-Time E-Classroom | *React.js, Node.js, WebRTC, MongoDB* | Live Demo | GitHub

January 2025

- Architected a scalable virtual classroom application using the MERN stack, earning a Top 15 placement at the Hack-o-Feast National Level Hackathon.
- Engineered seamless live video streaming and low-latency real-time messaging by integrating WebRTC and Socket.IO for interactive remote learning.
- Secured user session integrity and data access by implementing a robust token-based authentication system utilizing JWT.

Automated Drone Delivery System | *Python, OpenCV, DroneKit, MAVLink, Raspberry Pi* | GitHub **December 2024**

- Engineered an autonomous delivery drone capable of transporting physical payloads utilizing a Python flight script and a Raspberry Pi edge-node.
- Integrated OpenCV and Dlib for applied AI facial recognition, achieving 95% classification accuracy to trigger secure, servo-controlled package deployment.
- Programmed automated flight controls and real-time telemetry utilizing DroneKit-Python and MAVLink to ensure precise GPS navigation and RTL execution.
- Coordinated in Techno-cultural Fest 2023 & 2024 (Corona and Melange) and Drone Workshops.

Technical Skills

Languages: C/C++, Python, JavaScript, Java, SQL

Frontend: React.js, Redux, Tailwind CSS, Next.js, HTML5, CSS3

Backend & Cloud: Node.js, Express.js, REST APIs, MongoDB, MySQL, Docker

Hardware & IoT: ESP32, Arduino, Raspberry Pi, WebSockets, I2C, PWM, MAVLink

Core Concepts: System Architecture, Applied AI, Computer Networks, OOP, Hardware-Software Integration, Machine Learning

Achievements

- Placed among the top 15 teams at Hack-o-Feast (National Level Hackathon).
- Represented NIT Patna in a statewide autonomous Drone Delivery Challenge organized by Startup Bihar.
- Received NPTEL Silver Certificates in IoT, Cloud Computing, and Python Programming.

Extracurricular Experience

Technical and Design Head | *TESLA Club, NIT Patna*

December 2022 – May 2025

Technical and Management Head | *Robotics Club, NIT Patna*

October 2022 – April 2025
